

Color Sorter & De-Stoner Machinery specialist

Main Product(1)

Blue Eye & Mega-Plus Color Sorter Machinery

* Blue Eye Color Sorter(Application Model...BCS 128)

1. Perfect perception even minute particles by each Camera(16~2048Pix.) which attached Hi-sensitive sensor
2. Perfect sorting discolored Minute Particles by High Speed Ejector
3. Minimized consumption power, Semi-Durability system and Maximize function by attached High digital Chip

* Model : BCS128~256CH
* Capacity : 2.5~9.5Ton/Hr

* Mega-Plus Color Sorter Machinery(Application Model ...MGP 110)

1. **Optimum Optical Analysis Way**
2. Discolored , Minute Particles sorting perfectly by High Speed Ejector
3. Next Generation Multi-Functional sorting Machine which easier mode change and working by user design

* Model : MGP10~110CH
* Capacity : 0.8~6.4Ton/Hr

Contact us for buy 855-023-881-547

Main Product(2)

Mega-Plus Bean Sorter/De-Stoner Machinery

* Mega-Plus Bean Sorter Machinery
(Application Model ...MPS 70DW)

The First Miscellaneous Sorter Machinery in Korea

1. Exact Sorting without Grain crack by Conveyor belt transfer way
2. Available various miscellaneous sorting such as White Bean/Black Bean/Red Bean etc.
3. Sorting System which improved 99.9% for uneconomical efficiency of passive sorting type(Model) : MPS30 ~ 70DW

* Mega-Plus De-stoner(Application Model : MPST 40S)

•Total De-Stoner Machinery
Sorting foreign particles among of Grain such as Stone,
Metal Flake and Straw etc.)

Type : 30~70CH
Capacity : 2.0~7.0 Ton/Hr

Contact us for buy 855-023-881-547

Main Product(3)

Sigma Color Sorter Machinery attached Hi-sensibility CCD CAMERA

* Sigma Color Sorter Machinery(Application Model ...SCS 128)

1. Sorting discolored Glutinous & Non-glutinous Rice simultaneously
2. Easiness of Machine maintenance control by Touch Screen control Way
3. Excellent Sorting Power & Capacity

* Model : SCS128~256CH
* Capacity : 1.0~10.0Ton/Hr

* Double Plus Color Sorter Machinery attached Hi-sensibility Photo Cell
(Application Model ...DCS 110)

1. Sorting discolored particles Glutinous & Non-glutinous Rice simultaneously
2. Easiness of Machine maintenance control by Touch Screen control Way
3. Perfect perception even minute particles by which both sides attached Hi-sensitive photo cell

* Model : DCS110~192CH
* Capacity : 1.0~8.0Ton/Hr

Main Product(4)

Mega Plus Pine Nut Color Sorter Machinery

* Mega Plus Pine Nut Color Sorter Machinery
(Application Model ...MPC 10)

1. Exact Conveying without Grain crack by Conveyor belt transfer way
2. Perfect sorting even minute grain by same speed conveying
3. Built-in sorting function for Flake, Tiny stone and Discolored particles which included Material
4. Built-in dust collecting function for minute dust and Skin in Grain(Inner & Outer)
5. Revolution speed of Motor controlled automatically depends on Grain shape
